CHAPTER MISSION
Fostering meaningful
experiences through education, part-
nerships and networking in the real
estate industry.

Attendees will learn property restoration techniques and principles to help reduce costs. Topics will include:

- The basic principles of Basic principles of water loss, mold remediation and indoor air quality issues.
- Basic principles of smoke and fire restoration. Why does soot seem to go everywhere? How do you remove it? How do you get the odor out? How can you determine what is salvageable? How do you assess the condition of electronic equipment?
- Unique clean-up and restoration projects. Many ‘unsalvageable’ become salvageable with the proper training, equipment and techniques.
- This is an excellent class to learn a variety of techniques used in mitigation.

Facilitator:

Tim Fagan

Tim Fagan is with Belfor USA and a licensed builder, as well as a Restoration Industry Association Certified Restorer and Water Loss Specialist - the highest level of training and certification available in the restoration industry. Tim graduated from the University of Michigan with a Bachelors of Science degree, and holds two post-graduate degrees in educational leadership from Eastern Michigan University, as well as numerous restoration industry certifications.
